

## Bree-Z Box Garmin Marine Network Port Compatibility

---

Some Garmin devices have the ability to share data, sonar, radar, and mapping with one another using the Garmin Marine Network. The Bree-Z Box is a direct replacent for the GMS 10 Network Port Expanding Hub.

### Marine Network Compatible Chartplotters

1.
  1.
    - GPSMAP 10x2 series (two standard network ports)
    - GPSMAP 12x2 series (two standard network ports)
    - GPSMAP 3xxx series (one standard network port)
    - GPSMAP 4xxx series (three standard network ports)
    - GPSMAP 5xxx series (three standard network ports)
    - GPSMAP 6xxx series (three standard network ports)
    - GPSMAP 7x2 series (one standard network port)
    - GPSMAP 70xx/72xx series (three standard network ports)
    - GPSMAP 74xx/76xx series (two standard network ports)
    - GPSMAP 8xxx MFD series (four standard network ports)
    - GPSMAP 85xx Black Box series (four standard network ports)
    - GPSMAP 9x2 series (one standard network port)

### Marine Network Compatible Chartplotters with Limited Support

1.
  1.
    - GPSMAP 8xx series (one standard network port)
    - GPSMAP 10x0 series (one standard network port)
    - GPSMAP 721 (one standard network port)
    - GPSMAP 741 (one standard network port)
    - GPSMAP 547 (one standard network port)
    - GPSMAP 547xs (one standard network port)
    - echoMAP 70s (one standard network port)
    - echoMAP 70dv (one standard network port)
    - echoMAP CHIRP 7x series (one dedicated Panoptix port)
    - echoMAP CHIRP 9x series (one dedicated Panoptix port)
    - ECHOMAP Plus 7x series (one dedicated Panoptix port)\*
    - ECHOMAP Plus 9x series (one dedicated Panoptix port)\*
    - ECHOMAP UHD 7x series (one dedicated Panoptix port)\*
    - ECHOMAP UHD 9x series (one dedicated Panoptix port)\*

\*The ECHOMAP Plus 7x and 9x series and the ECHOMAP UHD 7x and 9x series also have the capability to share sonar with other ECHOMAP Plus 7x and 9x series and ECHOMAP UHD 7x and 9x series units.

## Chartplotters that Include a Marine Network Port Designed for Dedicated Radar Use<sup>1</sup>

1.
  1.
    - GPSMAP 720/740 (one dedicated Radar port)
    - GPSMAP 720s/740s (one dedicated Radar port)
    - GPSMAP 721xs (one dedicated Radar port and one standard network port)
    - GPSMAP 741xs (one dedicated Radar port and one standard network port)

<sup>1</sup> Dedicated Radar ports are designed for use with a Garmin Radar only, other Marine Network devices are not supported.

## Marine Network Compatible Accessories

1.
  1.
    - GMR series Radars
    - GDL 30/30A XM Antenna
    - GMS 10 Network Port Expander (five standard network ports)
    - GSD 22 Remote Sounder Box
    - GSD 24 Remote Sounder Box
    - GSD 25 Remote Sounder Box
    - GSD 26 Remote Sounder Box
    - GCV 10 Scanning Sonar Module (three standard network ports)
    - GXM 53/54
    - Marine Wi-Fi Adapter Kit
    - Panoptix Transducers
